

COOKIE POLICY

COOKIE INFORMATION

What is a cookie?

Cookies are small text strings that the sites visited by the user send to his terminal, usually to the browser, where they are stored before being retransmitted to the same sites at the next visit of the same user.

Why does Cardin Elettronica use cookies?

Cardin Elettronica uses cookies in order to provide its customers with a browsing experience tailored as closely as possible to their tastes and preferences. By means of cookies, Cardin Elettronica ensures that you do not receive or enter the same information each time you visit the Ultimate cardin App (hereinafter, "App"). Cookies are also used in order to optimise the App's performance.

Essential and technical cookies

Cookies are used to navigate or to provide a service requested by the user.

Without the use of these cookies, some operations could not be performed or would be more complex and/or less secure.

Technical cookies are divided into browsing or session cookies (they guarantee normal browsing and use of the App), analytics cookies (assimilated to technical cookies when used directly by the App manager to collect information, in aggregate form, on the number of users and how they visit the App) and functional cookies (they allow the user to browse according to a series of selected criteria, such as the language, in order to improve the service provided to the same).

For the installation and use of technical cookies, the prior consent of the interested party is not required. The legal basis of the processing is the legitimate interest of the data controller.

First or third-party cookies

Taking into account the different subject that installs cookies on the user's terminal, depending on whether it is the same operator of the App that the user is visiting, or a different site/App that installs cookies through the former, a distinction is made between first-party and third-party cookies.

Cookies installed by the App.
