Characteristics EDGE

Digital radio controls with fixed codes

Radio controls

433MHz AM fixed code

2²⁰ code combinations

Available channels 2-4-5-21

Range 100 - 150m

The range of radio controls is complete by receivers with self-learning code, extractable memory modules and programmable outputs.

Product features T10EDGE

Radioprogrammer for sun blinds and awnings (230V-500W)

The radio programmer with an inbuilt receiver and transformer for one single phase motor finds its best use in the command of automatic sun blinds and awnings.

The appliance may also be used to activate lighting systems with two bulbs (230V max. 500W) or light rolling grills and shutters.

Inputs for one opening and one closing command via cable.
