

FM400RB2 - RADIO CONTROLS

2-channel receiver (12/24Vac-dc)

SERIES FEATURES

 433MHz

 iF

PRODUCT FEATURES

 433MHz

 FM400

Characteristics FM400

Digital radio controls Rolling Code

Radio controls
433MHz FM rolling code
2⁶⁶ code combinations
Available channels 2-4-5-21
Range 100 - 150m

The range of radio controls is complete by receivers with self-learning code, extractable memory modules and programmable outputs.

Product features FM400RB2

2-channel receiver (12/24Vac-dc)

Indoor box IP20.
Electronic circuit with a 8-way terminal block.
2 potential free relays.
Self-learning code function and programmable outputs in three different modes.
